YOU!

You, voters of Oregon, must decide November 7 whether or not you want the state to take away your God-given, American right and privilege to educate your child as you deem best.

An initiative bill, sponsored by a certain element of our citizens, known as the compulsory education measure, will be on the ballot this general election. It purports to compel children up to certain years to go to school (a very good thing in itself), but it goes so far as to tell you that you must NOT send them to any private school.

There is already a compulsory education law on our statute books that is working well. It, however gives you the right to say whether your child shall be educated in the public or a private school. YOU decide; but this new bill denies YOU the right to determine this question.

Do YOU want such a law as this in Oregon?

Every Woman Loves to Paint

when she knows how—let us tell you

PAINTING is really fascinating work. Once you are started you'll probably not want to stop until you have refinished many things you did not intend to do at first.

Of course there are some simple directions that must be followed if the work is to be successful, for we have a special "Home Service Paint Department" which was organized just to tell you how to paint.

Perhaps some of your furniture, floors, woodwork or walls are beginning to look a little old—just on the surface. Pick out one or two things to refinish. Tell us about them and how you want them to look when finished.

Our experts will tell you what materials to use, how to do the work step by step, what brushes you'll need, and everything about it.

For 73 years we have been making paints, varnishes, enamels, wall fin-

ishes and stains for women to use. They are the finest materials of their kind that we know.

Write for Fuller's Free Advice and refinish a few home things. You'll be surprised how fascinating the work is and how much you can save, too.
